## SENIOR PROJECT PLANNER / SCHEDULER | PROJECT CONTROLS | MICROSOFT PROJECT | PRIMAVERA P6

Project Scheduler and Project Controls professional with 7+ years of experience supporting EPC, utility, infrastructure, and industrial construction projects valued at multi-million-dollar budgets. Proven expertise in developing and maintaining baseline schedules, critical path analysis, resource forecasting, earned value reporting, schedule recovery planning, and executive-level project controls reporting. Experienced in utilizing Microsoft Project and Primavera P6 to develop resource-loaded schedules, track project performance, analyze schedule variances, evaluate change impacts, and support forecasting efforts. Adept at collaborating with project management, engineering, procurement, field operations, subcontractors, and clients to deliver accurate schedule information and drive successful project execution.

---

### CORE COMPETENCIES

#### Project Planning & Scheduling

- Microsoft Project
- Primavera P6
- CPM Scheduling
- Baseline Development
- WBS Development
- Resource Loading
- Manpower Forecasting
- Construction Sequencing

#### Project Controls

- Schedule Forecasting
- Earned Value Management (EVM)
- Schedule Performance Analysis
- Critical Path Analysis
- Float Analysis
- Progress Measurement
- Cost & Schedule Integration
- KPI Reporting

#### Reporting & Communication

- Executive Dashboards
- Schedule Narratives
- Weekly & Monthly Reporting
- Look-Ahead Schedules
- Client Presentations
- Stakeholder Coordination

#### Change & Risk Management

- Time Impact Analysis
- Schedule Recovery Planning
- Delay Analysis
- Change Order Impact Evaluation
- Risk Identification & Mitigation
- Claims Support Documentation

#### Software

- Microsoft Project
- Primavera P6
- Microsoft Excel (Advanced)
- Power BI
- Tableau
- SharePoint
- Smartsheet
- Jira
- Visio

---

### PROFESSIONAL EXPERIENCE

#### Kiewit Construction

##### Senior Project Scheduler

March 2025 – Present

- Develop and maintain detailed baseline and execution schedules utilizing Microsoft Project and Primavera P6 for large EPC and capital construction projects.
- Create resource-loaded schedules and manpower forecasts supporting engineering, procurement, and construction activities.
- Perform critical path, float, and schedule variance analysis to identify risks and recommend mitigation strategies.

- Monitor schedule performance against baseline and prepare recovery schedules when project milestones are at risk.
  - Support project forecasting by evaluating schedule trends, productivity metrics, and project performance indicators.
  - Generate executive-level dashboards, KPI reports, and schedule narratives for project leadership and client review.
  - Coordinate schedule updates with project managers, superintendents, engineering teams, procurement personnel, and subcontractors.
  - Evaluate schedule impacts related to change orders, scope changes, procurement delays, and field productivity issues.
  - Participate in weekly project controls meetings and present schedule status, critical path updates, and recovery recommendations.
- 

## **Zachry Group**

### **Project Scheduler (Primavera P6)**

March 2023 – February 2025

- Developed and maintained CPM schedules for utility, transmission, distribution, and industrial construction projects.
  - Established project WBS structures and maintained schedule logic to ensure accurate critical path identification.
  - Collected progress updates from field supervision, engineering, and subcontractors to maintain schedule accuracy.
  - Conducted schedule performance analysis and prepared weekly and monthly project controls reports.
  - Performed earned value tracking, float analysis, and schedule forecasting to support project management decision-making.
  - Supported Time Impact Analysis (TIA) efforts and documented schedule impacts associated with delays and scope changes.
  - Developed look-ahead schedules and recovery plans to support field execution and milestone achievement.
  - Coordinated closely with project teams to identify schedule risks and implement corrective actions.
- 

## **Data Sync Innovations**

### **Project Scheduler / Planner Specialist**

December 2020 – December 2022

- Maintained project schedules and monitored performance across multiple concurrent projects.
  - Assisted in schedule development, resource planning, and milestone tracking activities.
  - Produced project controls reports, dashboards, and executive summaries to support management decisions.
  - Coordinated project updates among cross-functional teams and ensured schedule data integrity.
  - Supported forecasting activities and schedule performance reviews to improve project visibility and accountability.
  - Improved reporting processes resulting in enhanced schedule accuracy and stakeholder communication.
- 

## **KEY ACHIEVEMENTS**

- Developed resource-loaded schedules supporting EPC and infrastructure projects with complex engineering, procurement, and construction workflows.
  - Improved forecasting accuracy through critical path analysis, earned value metrics, and schedule trend monitoring.
  - Created executive dashboards utilizing Power BI and Excel to communicate schedule performance and project risks.
  - Supported change order evaluations, delay analysis, and recovery planning initiatives that improved project schedule reliability.
  - Enhanced schedule quality through WBS standardization, logic validation, and project controls best practices.
-

## **EDUCATION**

**Master of Science, Information Technology Management**

Western Governors University

**Bachelor of Arts, Communication & Language Arts**

University of Ibadan

---

## **CERTIFICATIONS**

- Project Management Professional (PMP)
  - Primavera P6 Professional
- 

## **TECHNICAL SKILLS**

Microsoft Project | Primavera P6 | Microsoft Excel | Power BI | Tableau | SharePoint | Smartsheet | Jira | Visio |  
CPM Scheduling | Resource Loading | Earned Value Management | Forecasting | Time Impact Analysis |  
Critical Path Analysis | Schedule Recovery Planning
