

GUY SIGUE, PMP, PMI-SP

Senior Project Controls Scheduler | Primavera P6 | Mission-Critical Construction
(646) 530-5336 | Gmas2494@gmail.com | Open to Relocation and Travel

PROFESSIONAL SUMMARY

Senior Project Controls Scheduler with more than 11 years of experience developing and maintaining Primavera P6 schedules for hyperscale data centers, federal, healthcare, utility, and industrial construction projects. Skilled in building resource-loaded CPM schedules, coordinating long-lead procurement, sequencing complex MEP installations, and supporting commissioning through project turnover. Experienced working with owners, EPC contractors, subcontractors, and field teams to deliver accurate schedules, manage critical path activities, evaluate schedule impacts, and support successful project execution. PMP and PMI-SP certified.

CORE COMPETENCIES

- Primavera P6 EPPM & MS Project
- Critical Path Method (CPM) Scheduling
- Hyperscale Data Center Construction
- MEP Scheduling & Rough-In Sequencing
- Integrated Master Schedules (IMS)
- Long-Lead Equipment Procurement
- Commissioning & Turnover Planning
- Time Impact Analysis (TIA)
- Earned Value Management (EVMS)
- DCMA 14-Point Assessment
- Navisworks 4D Planning
- Power BI & Executive Reporting

PROFESSIONAL EXPERIENCE

Master Project Scheduler

PMI Services | Jun 2025 – Present

- Develop and maintain Primavera P6 master schedules for multi-discipline industrial and vertical construction projects.
- Coordinate engineering, procurement, construction, and commissioning activities to keep project milestones aligned.
- Perform critical path analysis, schedule recovery planning, Time Impact Analyses, and executive reporting.
- Use Navisworks for 4D planning and sequencing reviews to improve coordination before work reaches the field.

Senior Project Controls Scheduler

Duke Energy | Jan 2024 – May 2025

- Supported EPC utility capital projects by developing and maintaining resource-loaded Primavera P6 schedules.
- Performed schedule updates, variance analysis, earned value reporting, and critical path reviews.
- Validated subcontractor schedules before integration into the master schedule and mentored project controls staff.

P6 Master Scheduler – Hyperscale Data Center

Confidential | Jul 2021 – Jan 2024

- Managed the Primavera P6 schedule for the MEP scope of a 48 MW hyperscale data center in Northern Virginia from construction through commissioning.
- Maintained a schedule containing more than 10,000 activities covering long-lead electrical equipment, MEP installation, testing, and turnover.
- Coordinated interfaces with the owner's Integrated Master Schedule while supporting procurement, construction, and commissioning milestones.
- Prepared look-ahead schedules, schedule narratives, Schedule Basis Documents, and Time Impact Analyses for project leadership.

Senior Project Controls Scheduler

Environmental Chemical Corporation (ECC) | Jun 2020 – Jun 2021

- Supported mission-critical federal and healthcare construction programs including Camp Lejeune, a San Diego hospital, East 13th Street Substation, and Corpus Christi municipal projects.
- Built Primavera P6 baseline schedules, monitored critical path activities, supported earned value reporting, and evaluated change impacts.

Senior Project Controls Scheduler / Planner

Bay Ltd. | May 2019 – Mar 2020

- Developed EPC schedules using engineering, procurement, production, and field progress information.
- Supported schedule updates, delay analysis, field verification, and 4D planning activities.

Project Controls & Scheduling Lead

Con Edison | Mar 2015 – May 2019

- Managed capital project schedules for gas operations and electrical infrastructure programs in New York City.
- Performed schedule analysis, supported claims evaluations, and produced executive schedule and cost performance reports.

EDUCATION & CERTIFICATIONS

Master of Business Administration (MBA) – University of Houston–Clear Lake

Construction Management Certificate – Baruch College (CUNY)

Bachelor of Business Administration – Schiller International University

Certifications: PMP, PMI-SP, Microsoft Power BI, Microsoft Project, OSHA 30, Schneider Electric Data Center Certified Associate (in progress).
